A Little About Us

With almost thirty years

of experience, *DeltAg Formulations* has evolved into a formulator, manufacturer, and major supplier of soil and plant biostimulants and complexed micronutrients. With countless hours spent researching crops and soils, and working with producers in real life situations; *DeltAg Formulations* has proven to be one of the leading manufacturers of specialty ag products.

Through utilization of VITAMINS, AMINO ACIDS, ENZYMES, NATURAL PLANT EXTRACTS and a proprietary organic complexor, *Fulvone™*, *DeltAg Formulations* has developed products to more naturally stimulate the soil and plants providing nutrients and ENERGY for your crop.

**"It's not what you put out,
but what gets in the plant...
...that counts!"**

Biostimulants

Soil Solution Stubble Digester (Qt/acre)

Seed Coat Dry Hopper Box (2 to 4 Oz/acre)

Percplus Crop Stimulant (8 to 32 Oz/acre)

Nutrients

Nutri K 28% K (Qt/acre)

Calcium Plus 8% Ca (Pt to Qt/acre)

Magnesium Plus 4% Mg (Pt to Qt/acre)

Sulfur Plus 10% S (Pt to Qt/acre)

Micro Nutrients

Boron Plus 5% B (4 to 20 Oz/acre)

Copper Plus 5% Cu (8 to 16 Oz/acre)

Iron Plus 5% Fe (8 to 16 Oz/acre)

Manganese Plus 10% Mn (Pt-Qt/acre)

Zinc Plus 10% Zn (Pt to Qt/acre)

DeltAg Chemistry

DeltAg utilizes what we refer to as "Plant Catalyst Chemistry"! After many years of providing nutrient consulting and testing, DeltAg now formulates products with "Crop Response" as our primary focus.

It's not what you put out, but what gets in the plant....that counts !

What is our secret? Since 1976, we at DeltAg have been striving to find a better Biostimulant. We developed "Fulvore" as the basis for our chemistry. Fulvore is a proprietary formula that performs much like Fulvic Acid in the plant. It enhances membrane permeability and translocation. Today, after years of developmental work and field trials, we utilize our Fulvore to carry our 'active' chemistry into the plant. With Fulvore, we are allowed the luxury of force feeding additions of Vitamins, Amino Acids, Enzymes, and Natural Plant Extracts. **Result: Low Application Rates!**

Low Rate Crop Response

DeltAg Facilities

The facilities of *DeltAg Formulations* provide for quick response to dealer orders. Located in Greenville, Mississippi, the heart of the Ark-La-Miss, we are ready to meet your dealer needs, one by one.

We have the ability to ship by pallet or truck load on a daily basis. With a proven track record for service, we are confident that inventory will not be an issue with *DeltAg* as your partner.

DeltAg Formulations provides the best performing *Biostimulants* and *Micronutrients* in the industry, with *research*, *quality assurance*, and *field performance*, and a design or total satisfaction from the Dealer to the Grower.

Proven Results
