Soluble Zinc (Zn) 2.00%

Derived from Zinc Sulfate
Weight per gallon: 8.86 lb at 68°F
Grams per liter: 1062 g at 20°C

GENERAL INFORMATION:

Thrust is a liquid additive which is designed to improve crop response to liquid blended nutrients and enhance pesticide applications. **Thrust** contains a high concentration of **DeltAg's** proprietary **Fulvore** for improved plant uptake.

NOTE: By design, this product could enhance the activity of contact herbicides.

COMPATIBILITY:

This product is compatible with most commonly used fertilizer blends and pesticides. However, it is advisable to always check for compatibility.

APPLICATION RATE:

Foliar Broadcast: Add 8 ounces per acre to your fertilizer or pesticide applications.

Liquid Nutrient Activator: As an aid in liquid nutrient formulations, **Thrust** may be added to the solution at a rate of 1/2 % by volume. Specific liquid nutrients may require different rates depending on final rate per acre and solution pH. For best results consult with your **DeltAg** representative.

NOTE: Always follow label directions and precautionary statements on pesticide label. **Thrust** has been used effectively with many overhead herbicides on row crops such as cotton, corn, soybeans, and small grains such as rice and wheat.

CAUTION: KEEP CONTAINER TIGHTLY CLOSED AND OUT OF REACH OF CHILDREN.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal. Follow all governmental procedures for the disposal of pesticide spray solutions. Triple rinse container; empty rinsate into spray tank. Dispose of empty container according to approved local practices.

CONDITIONS OF SALE:

Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risk of use, storage or handling of this material when not in strict accordance with directions.
