Cotton Foliar Studies

Procedure: The *DeltAg* products, *Nutri K*, *Boron Plus* and *PercPlus* were applied at the fourth and sixth week of bloom in varying combinations and rates to help determine the most efficient product combinations and rates.

This test was designed with four (4) standard replications and averages are presented in these results.

- 1  Control
- 2  32 Oz *Nutri K* 4th Week of Bloom
- 3  32 Oz *Nutri K*, 4 Oz *Boron Plus*, 4 Oz *PercPlus*
- 4  2X of 32 Oz *Nutri K* Applied Twice-4th & 6th Week of Bloom
- 5  2X of 32 Oz *Nutri K*, 4 Oz *Boron Plus* (Applied Twice)
- 6  2X of 32 *Nutri K*, 4 *Boron Plus*, 4 Oz *PercPlus* (Applied Twice)
